EVERBLOOMING HYBRID TEA ROSES

All our Roses are strong, two-year-old, field-grown, budded stock, selected from No. 1 grade plants. Field-grown, budded Roses are stronger and better prepared for the garden than other Rose plants.

CULTURE: Give Roses the best location possible, with at least a half day's full sunlight. They want well drained soil, prefer a rich clay loam, but will grow in any soil if fertilized with either manure, bone meal, or G. & O. Rose Food. G. & O. Rose Food is especially prepared for Roses. These fertilizers should be applied at the time of planting.

When the flower buds begin to show color, liquid manure or some quick-acting chemical fertilizer is given once a week. Liquid manure is made by soaking sheep or cattle manure in water.

MULCHING: During the summer months mulching is beneficial. It eliminates cultivation and retains moisture in the soil. We recommend ground corn cobs or peat moss for mulching Roses.

BETTY UPRICHARD: Vigorous, healthy plants with semi-double flowers of good size and substance, brilliant orange-carmine inside, reverse light salmon.

EDITOR McFARLAND: Perfectly formed, brilliant rose-pink flowers for cutting. The plants are vigorous and bloom freely.

ETOILE DE HOLLANDE: It's fairly full, brilliant red flowers open in all weathers and have wonderful fragrance. Vigorous habit and clean foliage.

GOLDEN OPHELIA: Nicely formed, pure yellow flowers. A perfect cut flower. Medium sized plants.

KAISERIN AUGUSTE VIKTORIA: Creamy buds and perfect snow-white blooms tinted lemon-yellow at center; fragrant, medium upright growth.

LADY HILLINGTON: Deep apricot yellow.

LUXEMBOURG: Produces a large coppery-yellow flower on a strong plant.

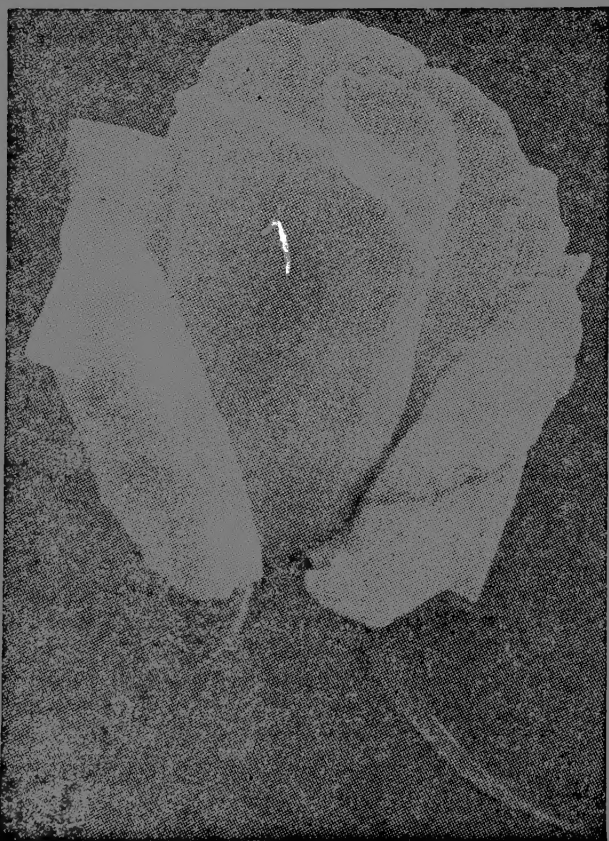

MRS. CHARLES BELL: Also called Shell Radiance. A sport of Red Radiance with flowers of similar form but of an exquisite, delicate shell pink coloring. The only rose of its particular color. Vigorous plants which anyone can grow.

RADIANCE: Globular, cupped flowers of two-toned pink, light silvery tone on the inside and deeper on the outside. Vigorous, free blooming plants.

RED RADIANCE: A sport of Radiance and exactly like its parent except in color, which is a cerise red. Very popular and dependable. Easily grown.

POINSETTIA: A rich red flower, plants dwarf. A fine garden rose.

TALISMAN: Variable flowers ranging from rich scarlet and gold to deep rose and pale yellow. Fragrant.
